### Quick biography

Prof Dr M Ramachandra Mohan is the President of Indian Society for Comparative Animal Psychology and Professor at Bangalore University, India and working on Climate change, Food security and Water management area since 22 years. Dr Mohan has a deep-seated interest in exploration and fieldwork. He is fascinated by nature, human activities, and their interaction. This has taken him to some of the most interesting and pristine places in the America, Europe, China, Brazil, Italy, Central Africa and Africa, where he has had the great fortune to be part of biodiversity monitoring programs, of arid areas and much survival. He has been actively involved in the world of Climate change for 33 years, as well as our global freshwater fish field surveys. His concern for freshwater and freshwater habitats, which are critical ecosystems for the survival of the planet, and his appreciation that support for human communities is an integral component of conserving the planet, have prompted him to join Commission Member - IUCN CEEP/SSC Sustainable Use and Livelihoods Specialist Group 2013-2018 that liaises with the various Universities and organizations, and through his own activities, he actively participates in field projects, biodiversity research and analysis, and funding and advocacy for environmental concerns. Dr Mohan is the Global Member of the IUCN Species Survival Commission's Fresh Water Fish Specialist Group.
